

Accounting 2 – Career Searching Activity

25 points

1.) Discover a number of possible Accounting Careers and describe their job activities. Take the time to explore different business websites, career search engines, and other resources for different accounting jobs. It is required that you include the References of where you retrieved the information in a short Works Cited page.

2.) You must answer the following questions for each of the 2 positions that you discover in a separate document. Make sure it is an accounting related position.

1. What is the job title?
2. What company is position for? Describe what the company does?
3. What is the job description?
4. What are the job requirements? (Education, Experience, Expertise, etc...)
5. What is the starting salary/hourly rate?
6. How are you compensated besides wages?
7. What interests you about the position?
8. What would be a potentially downfall of the position?
9. Include a career accounting video to support the career choices that you made. The video should be related to the position chosen and help the reader understand what this job might look like. This can be a link or embedded into your presentation

3.) You will create a presentation summarizing the information that you found for ONE of the careers to help your audience better understand the career you chose. The presentation can use PowerPoint, Prezi, Google Presentation, Keynote, or whatever is preferred.
